

## Donald "Scott" Mack

August 15, 1961 - September 24, 2021

Donald "Scott" Mack, 60, of Summerville, South Carolina, passed away surrounded by family on September 24, 2021. In lieu of a funeral, there will be a Celebration of Life Service held at a later date.

Scott was born August 15, 1961 in Boston, Massachusetts. Scott was a lover of nature; he enjoyed hiking, camping, fishing, metal detecting, and mostly his chihuahua, Cashew. He was devoted to his family and always willing to help others. Those who had the honor of knowing him knew that he had the most kind, gentle soul, and he was a role model to many. He served in the United States Air Force for a number of years and then went on to work for Pratt & Whitney. He was a hard working man, both in his career and around his home. Scott was always thinking ahead and made sure his family was taken care of, even after his death. To know Scott was to understand what it means to be loved. He will be missed terribly by those who knew him, and those who didn't missed out on knowing one of the world's greatest men.

Scott is survived by his loving wife of 27 years, Jill K. Mack; his children: Scott Mack, Ashley Williams (Nick), Lauren Mack, and Cashew (his favorite); granddaughters: Aubree and Holly; his parents: Donald Mack and Judy Grace; brothers: Steve Grace and Chris Grace, along with many other beloved family members.

A memorial message may be written to the family by visiting our website at <http://www.jamesadyal.com>.

ARRANGEMENTS BY JAMES A. DYAL FUNERAL HOME, 303 SOUTH MAIN STREET, SUMMERVILLE, SC 29483 (843)873-4040.

“ I was really taken back when I heard. Scott is one of the most uplifting men I've ever had the privilege of meeting. No matter what was going on, an entire room would become excited when he would walk into it. He had such a positive outlook on everything. I only knew him for a short time, but it seemed like he was a life long friend every time I saw him. Scott you are a true blessing to be around and I'm grateful for you. God bless you.

“ My deepest condolences to the Mack family for their loss. Scott was a great and kind man. I have been privileged to know him for several years and a better person you will not find. He was there for me during my heart surgery in 2018 and his support helped get me through a very difficult time. During my recovery, he hit it off with my mom, another Mass native, and she also grew to be very fond of him. My mother, Beverly, and I will miss Scott so very much. May God grant Scott eternal peace and bless the Mack family always.

“ I met Scott on 99 Sqn, RAF Brize Norton. A kinder, warmer, more caring person you'd be hard pushed to find. He made everyone feel at ease and had a kind word for all or, if you were lucky, a handshake and a bone crunching hug. RIP Scott, honoured to have been a friend.

“ We have lost a huge presence in the C-17 family with Scott's passing. I had the honour of working with Scott during his time supporting the UK fleet, and his professionalism was unsurpassed. But his generosity of spirit and camaraderie is what I fondly remember. A true LEGEND.

Team Brize Norton send their heartfelt condolences to the family and personally I have lost a man I was proud to call my friend. RIP Scott.

“ Every time you met Scott he would welcome you with a big handshake. Then his hand shake would end up pulling you in for a hug. This big strong man was a giant in stature however a true gentleman in every sense of the word. Scott's love of people was contagious to all who met him and that Love endures forever. We Love you Scott and thanks brother for being you. Jill, Scott (Jr), Ashley, and Lauren we are all praying that God may help provide you peace and comfort in the days ahead.

“ The world has lost an angel on Earth. Scott was one of the kindest and loving person I have ever met. If the world have just a few more Scott Mack's there would be a lot more love in the world. He would always fill the room full of positive energy with just his mere presence. I sure will miss his bear hugs.

“ I will always remember Scott fondly for the biggest of handshakes that always turned into a huge hugs. Scott was part of the original furniture at Brize Norton and helped to shape the family feel that has endured over the years. He will be missed by all in the UK and around the world where he was a friend to all.

“ Scotty Mac was one of the best people I'd met, he worked with us in Charlotte when C17's arrived during our conversion, I'll never forget his warm personality and 'top of the morning to ya' greetings. He would never leave without a good hug. The world lost a truly great man.

“ Scott worked with many people in the Peace Sun Project in Saudi Arabia. That's where he changed my life. To this day I haven't met a man with Scott's demeanor. Always a kind word. Always an ear to chew. Always a smile no matter who he met. Everyone was a friend. When he and Jill married there was no doubt they were meant for each other. Love transcends tragedy. My most sincere condolences to everyone who was lucky enough to know Scott.

“ God made only one Scott Mack. Great Husband, Father, Colleague, and Friend. To those whose knew him, he was your best buddy. To me, he was also like a brother.

Working together at PW on the C17 program, Scott was also the perfect Field Service Rep. He set the gold standard by opening the first international C17 base at Brize Norton, UK. Scott was technically smart, had a great work ethic, and knew how to work with people. Every time I went to Brize, EVERYONE asked "How is Scott Mack ?.", "When is Scott coming back as our Rep ?" He was well liked and even more importantly, he was highly respected. I miss you buddy, more than you could imagine.

To Jill and the entire family, our hearts go out to you. Scott will always be loved and remembered. Mike and Margarete Williamson

“ I first met Scott at Brize Norton Air Force Base in England 2002 while I was temporarily on assignment there. He always made people feel they were welcomed. Years later I was happy to hear it was Scott and family moving to Charleston. Extremely knowledgeable about the C-17 engine and he did what it took to get the job done. I could always count on him to brighten the day with a “Good Morning” while passing in the hallway. His warm caring smile relayed that you and your issue were important. So sorry you had to go so early in your life..... You will be missed. Godspeed.

“ Scott's is an example easy to follow. I and his peers at 33rd CRS Propulsion called him Mack. He presented himself as a stand up guy, always there, ever present to lend a hand. His smiling demeanor, along with his willingness to listen, earned him our trust. It was the mid 80's when I met Mack and his family; it was an introduction I will forever remember. He became a peer and a trusted friend, a relationship that has lasted the span of time and distance. Mack, you taught me a lot that has helped many of us build character, loyalty, and friendship. I thank you for what you have shared with us. I pray that God rewards you, that He keeps you. May God give you peace.

“ Scott and I worked together for several years at Charleston AFB. Whenever I had an engine question, Scott was the go-to guy to provide the answers. His double handshake was always a welcome friendly site. The Air Force and Pratt & Whitney have lost a man that made tremendous contributions in the defense of our Nation. Rest well, Scott, .....you were a gentle giant of a man who will be missed.

“ My wife Naomi and were stunned to hear this sad news. I met Scott when I joined 99 Sqn, Royal Air Force in August 2002. He made me feel so welcome and we instantly became friends. My wife met Scott and Jill when we went to Charleston in 2019. He made us feel

Like we'd known him all our lives and treated us like family. He always called me 'brother' in that lovely soft tone of his. He had the most gentle nature and nothing was too much trouble for him. We will raise a glass to celebrate the life of Scott, the loveliest of human beings. We send our love and our thoughts to Jill and the family. Fair winds and blue skies brother .
