

Anne Marie Massey

October 28, 1957 - February 7, 2023

Anne spent her life dedicated to all forms of art - wood carving, oil painting, water colors, sketching, and drawing. She was prolific, so all of her friends and family have memories stored in the pictures she gave them. Through her art she connected with everyone she knew. Rarely would she sell anything but rather gave everything to anyone that wanted. She was strong willed, opinionated, and love to argue but would always help out in any way she could.

Her other favorite past time was cooking. She learned at an early age from travels around the world as a military dependent. What she could do with a pork roast was amazing.

She graduated from Garrett High and was a student body leader. She struggled with her weight as a young woman yet later developed a personality that could embarrass some, thrill others, and make friends of most. She will be missed by her two brothers, and though she may never admit it, is now with mom and dad since there is no one more deserving.

She was very fond of this 'Thought for the Day' from Luis Nizer so we would be remiss if we didn't share it and ask everyone to remember Anne in their hearts as she certainly had them in hers.

A man who works with his hands is a laborer;

A man who works with his hands and his brain is a craftsman;

A man who works with hand and his brain and his heart is an artist.

She wasn't a feminist so would not have argued that it should be non-gender. To her, the thought described perfectly her passion and dedication. We ask all for prayers of remembrance and to know that she was always thinking of her friends and family.

Loved and missed always,
Her Brothers

“ Anne Marie and her brother Larry where both good friends of mine while I lived in Summerville in the early 80s. Some of my most fondest memories was the time I spent with both of them in my teenage yrs. No one to this day made me laugh as much as Anne Marie did. So funny. So talented.
I lost touch with her after joining the Army in 85. I thought of her often over the yrs. Lots of fun and great time memories I will always have of her to keep and share with others. I will never forget you girl. Love and memories ,, Steve Ramaker.

“ *Anne was a dear friend of ours for over 32 years. We are blessed to have her art work all around our home. She painted a beautiful mermaid on our wall by our pool when she came out to Cali last time. I will miss our weekly talks and hearing what she was making her spoiled pup for dinner. She was the God mother to our son, and watched him take his first steps 32 years ago. We will miss her caring spirit and laugh. Our thoughts and prayers are with the family. May her paint brush and pens continue to decorate the heavens.*

“ What can I say now except, my heart ❤️ is broken ,and you left way to early. I would loved to have talked with you yesterday and this morning, especially to say, hey, I'm coming on down and you in return would say, well, come on ,and you of course would have a pot of shrimp gumbo just waiting for me to arrive. You were my #1 cousin, best friend, my go to, when I was hurt or just simply needed a recipe, as everyone that knew you, knew you were the best of cooks there was! There is that word "was" , still I cannot, for the life of me wrap my head around. I will forever keep you alive in my heart! I'm going to miss our daily 1-2 hours of conversations. People probably wonder just how much can you say everyday but we just did. Some may not have understood your lifestyle, or mine either, but it was okay, we understood each other, and that was all that was important in the end. I know I'll reach for my phone for a long time to come, just to call you. I know you liked showing a rough edge but, I thank the Lord, I could see beyond that and see your heart was the size of your jeep! I just hope you seen all in me that you needed. I could go for hours, but I'll hold tight and it will not be long till we see each other again. The pictures you have given me, the t-shirts painted on, I will hold so close to my heart, however right now, I'm just having a hard time coping with the loss of you. I'm hoping by now you have hooked up with Aunt Mae and doing some major cooking. I don't know, but one day I'll find out. Till then you will always and forever be remembered by all your Virginia family for sure. Tell everyone I said hello and when my time comes, I'll see you again! My best friend and #1 cousin, rest easy and know just how much I loved you and always will. Kim

“ Ann Marie was a close friend of mine in high school. We would hang out at her house in the afternoons listening to records, and she turned me on to so much great music and art. She was always interesting, provocative, intelligent and intensely alive. Anne Marie was such a gifted artist, and I hope her flame will continue to burn from her legacy of art. Rest In Peace, my friend. ❤️

Anne, we miss you! I too was a classmate, She was our class president. A natural leader. I have a vivid memory of her introducing me to, “The London Howlin’ Wolf Sessions.” She was first to know about the “Cool Stuff.” “Go ask Anne” was a common phrase, not so much for approval, but more to check out if there was a better way. We respected her. She bridged the gap between school faculty and students. It was not uncommon to see her in deep conversation with them. RIP.
