“ Our first grandchild left us so soon and I will miss him so much! I will always remember our good times together. He was so talented and smart and there was nothing he couldn't accomplish once he put his mind to it. The work he did when we fixed up the Econoline will forever be part of us. I Love You!

“ Im so sad this is the only picture I could find, but anyways, I met u when I was 16 2 days after my mama died, and we instantly clicked..we sat in the truck in the mall parking lot that day for hours just talking about life and getting to know each other...wasn't long before u moved into my dad's house with me because let's face it we were constantly together anyways...I wasn't the girl that went to all the parties with you, or went out doing dumb things...I was the girl you took to street races, and worked on cars with..the one u went fishing with after after work & took home to your family. No matter what I did you always treated me with such love and kindness, as life took me all kinds of crazy paths, you found your way on every single one of them, and each time it was like no time at all passed between us, the chemistry and love was always the same. Didn't matter who it bothered u were ALWAYS there..13 years I got to love you, and for the rest of my life I'll search for you in every storm, and every sunset I love you oceans, now and forever twin flame.

“ Josh this one hurt me bro. You were always a good friend and I'm sad to see you go. You knew how to pick a person up when they were down & You always knew what to say to calm me down when I was having one of those days. I just spoke to you a few weeks ago but I'm glad I did bc we left it on a good note. I'll never forget you brother. Condolences to the Richmonds. He loved his family a lot that I do know. He always talked good about his brother and mom when I lived with him last year. You'll always be my boy josh. Rest in peace !

“ Josh was such a sweet young man. Taken to soon. You gave your mother and us a run for our lives. I will never forget how he would knock on the bedroom door and called down to me saying Gamma before I had my first cup a coffee. I would go up the stairs to get him. His smile made me laugh inside He loved to speed even when he was a baby. We all had to watch our feet. We could go on and on through his life. My only hope is that he doesn't speed and drift in heaven. (Not him). Please wear your seat belt. I already gave heaven a head's up. Maybe they will have a race track. We love Josh very much. He will always be in our hearts and memories.

I remember the very first time we got to meet Joshua when he was a little boy..He had a special place in my heart from the first time. I love him very much..This is so sad to have to except he's not hear with us anymore but the most gut wrenching is hearing Jessica cry and scream. She loved Josh so much and in a deeper way then most can even imagine. You will be deeply missed..we love you Joshua..

“ Josh was a very loving and smart young man. He will be missed dearly. One of my oldest grandsons. I'll love him bunches forever. One of my fondest memories is him, Zach, Erika, Alyssa, and Jackson making, "Bridges to Teribethia " in my yard (woods) one summer when they were very young. I think of it often, and smile, since I've tripped over their vines several times over the years.
