

Lori Ann Campbell

February 21, 1965 - December 2, 2019

Dr. Lori Ann Campbell, 54, of Summerville, passed away on Monday, December 2, 2019 at her residence following a long illness.

Lori was born on February 21, 1965 in Youngstown, Ohio, a daughter of the late Edward and Dorothy Bunyoff.

She leaves her husband of 29 years, Dr. Stephen Campbell of Summerville; sisters Vicki Becker (Glen) of Beaufort and Kathi Peddicord (Don) of Summerville; and many nieces and nephews. In addition to her parents she was predeceased by her brother, Gerald Bunyoff of Columbia.

Lori was a graduate of The Northeast Ohio Universities College of Medicine. She came to Summerville in 1990 and devoted her professional life to her work as an Obstetrician/Gynecologist at Women's Health Partners in Summerville which she established in 1993.

In lieu of flowers, memorials may be made to The Lowcountry Food Bank, 2864 Azalea Drive, North Charleston, SC 29405.

A memorial message may be written to the family by visiting our website at www.jamesadyal.com.

ARRANGEMENTS BY JAMES A. DYAL FUNERAL HOME, 303 SOUTH MAIN STREET, SUMMERVILLE, SC 29483 (843)873-4040.

“ I was truly saddened when I learned of Dr. Campbell's passing. She was a wonderfully compassionate physician who truly cared about her patients and did everything she could for them. Dr. Campbell graciously hired me as a new nurse practitioner to her practice back in 2013 and I loved working at the practice until I moved out of state in 2019. Dr. Campbell and I shared an "office" with our desks back to back. I learned so much from her during those so many work day, not only about medicine but about life. We talked about music and movies, family and food, pets and politics. We sang along to the radio together, teaching each other the correct song lyrics. I loved this time we spent together and I cherish these memories. She was the first to offer a hug if you needed one (or looked like you needed one). My heart truly aches for her husband, her family, her pets, her patients, and the community that loved Dr. Campbell so very much. Much love, Dr. C. I will miss you. Love, Suzanne Trinkl

“ My condolence goes out to the family of Dr. Lori Campbell. She was an awesome person, a beautiful spirit and loving soul. My heart is heavy because she became a friend although she was my doctor. Even after I left her practice due to other reasons, I still visit with her numerous times. I would make a special trip to see her and her staff during the Christmas Holidays. When my life turns upside down when my mother passed, she was there for me. I love her like a family member and a true friend, not just my doctor. Rest in peace, my beautiful friend. You were an awesome person. You will always be in my heart. My prayers are with the entire staff and her family.

“ Dr. Campbell was such a special person to me. She possessed a kindness and compassion that was unparalleled. I met her at a time in my life when I was uncertain and needed support. She always took time to listen and take care of my emotional health and my physical health, and reminded me that both were equally important. I'll never forget when she took the time to send me a handwritten card in the mail to show me how much she cared. I've kept that card over 20 years. She was so much more than a doctor to me. She was there when both of my kiddos were born. She rushed to Summerville from Sullivan's island when my son was born. She scrubbed in for my daughter's birth even though she didn't have to, just because she wanted to be there. She has always been an angel, now she has her wings.

“ I was so saddened to hear of Dr. Campbell passing. She delivered my son on May 22, 2000. My son was born not breathing and she went above and beyond to save my baby. It is because of Dr. Campbell that I was allowed 17 good years with my son. He passed on March 26, 2018 and I took him in the office to meet her a few months before he passed. I wanted him to meet the first face he saw when he entered this world. To her husband and family, I am praying for all of you. “ Sincere condolences to Dr Campbell's family. She was my GYN Doctor for over 25 years. I'm so saddened by the loss of such a loving and caring health care professional. She treated every patient like friend & family. She was compassionate, sincere, and always joyful in every encounter with her patients. My fondest memory is when she heard that my daughter had become engaged. She rolled her stool across the exam room, very close to me and asked with all sincerity, " I just have one question for you...is he worthy?" That is the kind of person she was! My answer was "absolutely yes" and she seemed content with that answer. She genuinely cared about her patients. It was a honor to have known such a kind and remarkable person. “ *Like so many of the other posts, I was completely shocked and saddened to hear about Dr. Campbell's passing. She was my doctor beginning in high school through the births of .all three kiddos. The kindness, compassion, and knowledge she shared with me will forever have an impact on me. She truly seemed just as happy as the family when each child was born. My husband, who has cerbral palsy, was able to cut each child's umbilical cord because Dr. Campbell kindly placed her hand over his to assist in guiding the cut. I don't believe this was ever truly planned or discussed. It just happened naturally as result of her intuition and sensitivity. I feel like I could go on for hours recalling moments that she touched our hearts, but I can't seem to find the words to summarize the immense love and dedication that we felt from her.*

“ *Lori was tender. She had a strength that calmed a room. She had such presence that always assured me she was listening and understanding.*

She was at the end of a very long shift the day my son was born. It was a rough day and things were not going as planned. She came to let me know we would be delivering soon but that another doctor would be taking over. When she said the name, I visibly shook and she saw it. She asked me why and I explained she was a smoker. Small thing really but I hate the smell. She left without saying a word and returned ready to deliver. She stayed. It was the most amazing gift and transformed the whole moment.

She later held my hand through cancer scares.

She was a wonderful human who touched my life in a way these words can't capture.

I became eclamptic at 24 weeks and 6 days. I was in the hospital and passed out and had a seizure in her lap and when I awoke she told me what happened and she was transferring me to MUSC. I had my daughter the next day. She is now 17 1/2 years old and perfect.

“ When I found out in the spring of 2017 that I was pregnant with identical twins, my husband just recently deployed, and I had two small boys at home, Dr Campbell and i sat down and she assured me everything would be ok. I told her i had no family here to rely on and that bed rest (which is common in twin pregnancies) would never be feasible. She said ok and we never talked or worried about it again. I knew when my identical girls were going to be born she was the only one I trusted to do it. November 13th 2017 she brought my two little identical twincesses into this world. They weighed the exact same weight and I remember her smiling and saying that doesn't happen very often. I thank Dr. Campbell for her time and patience with me and my children. Prayers to her family and friends.

“ Dr.Lori and Dr. Jackie saved my life one day in 2000. I had ran away from an abusive relationship and found out I was pregnant. Well, the guy tried to break down their office door to get in the room. They called the police for me. Then he tried to run me over with a van the next office visit. I am so sorry to hear about the loss of Doctor Lori Campbell. I was a Labor and Delivery Nurse at Summerville Medical Center from 1993 to 2003 when I retired. I have many wonderful memories of her. She was so wonderful to her patients and great to work with her. She love to show us her horses and talk about them. Prayers for her husband and family. God Bless You All and Comfort You!!!! “ I am at a loss for words. I knew this day would come but never thought it would be so soon. My story with Lori goes back to the first days of the practice (Trust me there is not enough room in this text for all I need to say). I not only consider her as a Colleague, friend, but also a patient. God put her on Earth to do exactly what she loved and I will truly miss her smile and dedicatiton to her practice but also her love for her patients. Lori I will truly miss that Beautiful Vibrant Smile and you will never be forgotten. Brenda Rankin Fly High Sweet Lady

“ I am so heart broken. She is my Doctor, she delivered both of my babies the last one was December 17,2018. And did my tubal ligation. I love her! I did noticed that something was different with her at times compare to previous appointments I had with her. I guess she was trying (and did a good job) to hide whatever illness she had. I always thought she is overworked and need some rest. I will miss her so much!!!! I am so sad 😭! She is a great! Doctor

“ Always a smile, a hand on my shoulder, and a kiss on the cheek when I found out I was pregnant with my surprise boy at age 40! She had a gift. My heart aches for her family. I know you all were sooooo close. Kathi and Dori, I love you. Carry her love with you and spread it to all!! Love you too Don and James.

“ Lori and I were "peanut butter and jelly". She gave me my first job and kept me for 22 years. Mentored me with love and patience which I will always be grateful for.

What I will always remember is that Lori had a keen way of really seeing you, her eyes would crinkle followed by a smile. When you needed a hug she was there with arms wide open with the tightest embrace ever. She had the biggest heart...I remember years ago an employee was going through some tough times, and Lori just emptied her wallet, no questions asked. That is who she was.

I remember breaking ground on WHP and she slipped in the mud, laughing at herself because it was funny. It was a good day. She was Santa incognito for our yearly Christmas Sock contest, how she loved the holidays.

My heart and prayers are with Steve, Kathie, Vickie and all the family.

Heaven has gained another angel. I will miss you.

You and Dr. Campbell were the reasons for me following from Carolina Women's Care to WHP. Dr. Campbell always took such wonderful care of me and I am so saddened to learn of her passing. We've truly lost a wonderful person.

Jackie, hearing the news on Channel 2 took my breath away. I too followed Lori and you before the groundbreaking was even planned. She was a God-send and my 3 sons are living proof of the miracles she helped bring into the world. For the past 24 years you two took great care of me. I feel like I have lost part of my own family. My prayers of strength and God's amazing grace to her husband & family and to you & her family at WHP.

“*Dr. Campbell always made time to make me feel important and listened to - she delivered my oldest son. I'll never forget being told by the nurses to start pushing, and then Dr. C came bursting in the room with a smile, took one look down at my baby's head and yelled, "Stop pushing!" She hadn't even had a chance to wash up. Haha. She said Jonah came out "like a rocket." Jonah still loves this story. She always told me everything straight - her humor was brilliant as was her smile and bright eyes. She will always have a special place in our family's memories.*

*Dear Steve,
I am so sad to hear of Lori's passing. I was unaware she was ill, but I know so many women whom she has cared for and how loved she was by them.
I'm praying for you and your family to find comfort for your broken hearts. My thoughts are with you.

“ My heart is broken for the loss of this beautiful person. I have been a patient of Dr. Campbell's since 1994. She did her 1st five hour emergency surgery on me 1994. She always called me her miracle. I am so thankful to have had the chance of knowing her. To her family you will be in my prayers, for I know she will surely be missed. God bless You all.

“ I am so very heartbroken to hear this. Dr. Campbell had such an amazing way of making you feel like you were her only patient. She was there to hold my hand when I miscarried my my first pregnancy and made me feel like her priority through months of medical issues following. She delivered our son and almost delivered our daughter. Dr. Campbell hugged me and helped me through moments that brought to my knees. She advised me and pointed me in the right direction when I needed it most. Her faith and love for God we're so much a part of her helping others heal. I have always looked forward to our "visits" and am so sad to know that I will not be able to catch up with her again. What an incredible doctor! I will be praying for her family and all who knew her.

“ I was one of Dr. Campbell's first patients. She was so warm & funny & my girls and I loved her. A few years passed, and there she was, delivering my first grand baby, and in a few more years, another, and then another. She was not only a wonderful doctor, but also a wonderful person. Her passing leaves a huge hole in the world. I will never forget her.

“ I started going to Dr Campbell when her office was across the street from where it is now. She delivered all 3 of my children 17, 15, and 9. She was kind and patient. She had a wonderfully warm smile and a great laugh. I'm going to miss her. I hope she knew how much she was loved and respected.

“ Lori was the funniest person I knew. She could and would make you laugh in your darkest time. She had such a big heart and loved everyone. She always looked out for her little chickens (her front office staff) as well as everyone else in the practice. She could tell the silliest jokes but you still could not help but laugh. She loved her work family, she loved her patients and she loved her immediate family very much. She would give you the biggest bear hugs of anyone I know. She taught me alot while I worked for her. I will miss my friend more than I can say. To her immediate family - you are in my heart and prayers. You should be very proud.
With heartfelt love,

“ It’s rare to find a friend, a mentor, and genuine soul all in one person. This woman was that and more. She will be so greatly missed and thought of with such great love. Prayers to her family. I miss you Dr. Campbell. Love you and thank you for all you did and showed me. You made me a better person.

“ Words are hard to find to describe Lori. She delivered all 3 of my children, with some less than smooth pregnancies and was a doctor who went above and beyond for her patients. She listened and saw you as a whole person, not a stat. Everyone I know who had her as their OB has a story of her skill, her personality and her love for the squishy babies. My first appointment with her almost 15 years ago, she put aside the file and wanted to chat to get to know me. Later in the appointment when asking about plans for kids, we discussed breast feeding. When I told her I couldn’t but that was okay because I wasn’t, her response was, "Neither was I, and aren’t we fabulous?!?" After losing a pregnancy and a difficult fertility journey she all but cheered and gave me a giant bear hug, celebrating our success. I enjoyed her wit and sarcasm and always looked forward to my visits with her. She built an amazing practice with awesome professionals. Her legacy of bringing life into this world reaches far and wide. I hope that her loved ones find some amount of comfort knowing that she's touched so many of our lives and will never be forgotten.

“ So sweet and kind! Her dedication to her patients unremarkable. Without her knowledge and dedication, I would not have been blessed with the gift of my children. Love you Lori and will forever miss you!!

“ I first met Lori when she was around 5, when i started hanging around with her older sister. I fell in love with that older sis, and through a series of both unfortunate and fortunate events ended up as a father-figure, at least as much as a Peter Pan could claim to be. Marrying that older sister put me in a place to rescue Lori any number of times through her early years--she found respite at our houses through high school and college for sure.

So many Christmases and birthdays were amazing, but one of my fondest memories was swigging champagne out of the bottle at the bottom of the steps in the church where she was to be married-- while the organist played maybe a couple rounds of 'Here Comes the Bride', waiting for us to recognize our cue. Then I had the honor to walk her down the aisle.

Love you, Lor.
